Description

The S-Superficie Shining Bell Pusher IP54 250V is an industrial signaling device designed for environments that require environmental resistance and safe installation. Its surface technology ensures robust fixation, while its luminous housing offers immediate visibility in work or emergency areas.

Technical characteristics

- Power supply: 250V
- Maximum intensity: 10A
- Degree of protection: IP54
- Type of assembly: Area
- Mechanism: Fast Bribing

This push-button is essential for the operation of heavy machinery, industrial ventilation systems and areas where a clear and lasting visual alert is needed to adverse conditions such as dust or splashes. Its design allows effective integration into standard control panels and high voltage electrical circuits.

The installation is easy thanks to its fast-flashing system, which allows the device to be fixed on any flat surface without the need for specialized tools or long waiting times for its commissioning. This facilitates maintenance and replacement in active industrial plants.

Specifications

Colour	Grey
EAN	8425160256791
Material	ABS
Weight (kg)	0.1047
Protection	IP54
Type of installation	Surface
