Product sheet

Onlex 6-socket power base with illuminated switch black cable 3m

Brand: ALFA

Reference: ALFA 25753

Black Onlex socket base with 6 sockets and ground connection for electrical safety. Includes integrated ON/OFF lighted switch and 3 meter high strength insulated cable. It supports 250V voltage and 16A amperage with child protection. Suitable for simultaneously feeding multiple devices in homes, offices or workshops.

Description

The Onlex 6 socket base is a compact electrical solution designed to distribute energy safely and efficiently across multiple points. Its integrated technology allows centralized control of the supply by means of a ON/OFF switch with a light indicator, facilitating the management of connected devices without needing to manually unplug each socket.

Technical characteristics

- Nominal power: 250V / 16A
- Number of sockets: 6 plugs with ground connection
- Cable material: High strength and durability insulation
- Cable length: 3 meters
- Integrated protection: Child safety mechanism
- Switch: Illuminous integrated ON/OFF with visual indicator

This product offers significant benefits by allowing the simultaneous power of several electronic devices, reducing disorder in spaces with high electrical demand. Its robustness and load capacity ensure stable operation for office, home or workshop equipment.

The installation is simple: the cable is connected to the main network and the switch position is adjusted

as needed. The light indicator confirms the ignition status, optimizing energy use and improving safety in domestic or professional environments.

Specifications

Rated current (A)	16
Colour	Black
EAN	8425160257538
Long	3mt
Material	ABS
Weight (kg)	0.547
Power (W)	250
