Description

The Black Onlex 6T Cable/Switch 5MT is a compact electric distributor designed to manage the power supply of multiple devices safely and efficiently. Its integrated technology allows centralized control of supply by means of an ON/OFF switch, facilitating rapid disconnection in any environment.

Technical characteristics

- Maximum power: 250V / 16A
- Number of sockets: 6 plugs with ground connection
- Cable material: High strength and durability insulation
- Cable length: 5 meters
- Child protection integrated into the sockets
- Built-in lighting switch for state display

This distributor is essential for homes, offices, workshops or events where it is required to simultaneously power several devices without saturating the fixed points of the installation. It ensures a safe electrical distribution by including ground connection at each outlet.

The installation is simple: connect the cable to an available plug and use the switch to turn on or off supply to all connected sockets, ensuring safe and practical handling of the equipment.

Specifications

Rated current (A)	16
Colour	Black
EAN	8425160258429
Long	5mt
Material	ABS
Weight (kg)	4.8
Power (W)	3680
Maximum power (W)	250
