

## Product sheet

## 3-Way Quick Connector 0.5-2.5MM

Brand: ALFA

Reference: RST 25843

The 3-Way Quick Connector supports cables from 0.5 to 2.5 mm<sup>2</sup> with terminals of 0.5-2.5 mm. It ensures safe and efficient connections through its design compatible with standard sections. It facilitates rapid electrical installations without the need for special tools to couple conductors in industrial or residential environments.

### Description

The 3-Way Quick Connector is a versatile solution designed to join cables with safe and efficient performance, optimized for electrical installations that require flexibility and reliability in connection.

#### Technical Features

- Compatible cable: 0.5 mm<sup>2</sup> to 2.5 mm<sup>2</sup>
- Number of ways: 3
- Connection type: Quick
- Terminals: 0.5-2.5 mm

This device ensures a stable joint that minimizes circuit failure risks, allowing for simple maintenance and continuous operation without unexpected interruptions. Its design compatible with standard sections facilitates rapid electrical installations without the need for special tools to couple conductors in industrial or residential environments.

For installation, it is recommended to clean cable terminations before inserting them into the ways, thus ensuring optimal electrical contact and extending the connector's lifespan in any operating environment. Pre-cleaning prevents oxidation and ensures that current flow remains constant.

This connector is ideal for applications requiring a quick and secure connection of multiple conductors simultaneously, guaranteeing optimal performance in complex electrical systems.

Specifications

|             |               |
|-------------|---------------|
| Colour      | Grey          |
| EAN         | 8425160258436 |
| Material    | ABS           |
| Weight (kg) | 0.0046        |
| Reference   | ALFA 25843    |
