Graphite recessed dimmer switch regulator 500W

Brand: ALFA

Reference: ALFA 26061

Entrant graphite LED regulator and switch with 500W capacity. Mechanical system designed for wall installation, offering precise intensity control and on/off. Presented in individual blisters inside eight-unit case, it guarantees durability and technical functionality for LED lighting projects.

Description

The 500W graphite recessable LED controller and switch is a mechanism designed for efficient lighting control. Its housing technology ensures optimal thermal dissipation, ensuring the longevity of connected light points and offering stable performance in residential or commercial environments.

Technical characteristics

- Maximum power: 500W
- Housing technology: Graphite
- Functionality: Integrated regulator and switch
- Presentation: Individual blister and box of 8 units

This device allows to adjust the level of light intensity according to the user's need, providing an adaptable environment. In addition, its switching capability facilitates the instant on and off without premature wear of internal electronic components.

The installation is simple by recessed in partition or plaster, requiring only the standard electrical connections. Its compact design adapts perfectly to conventional bypass boxes, allowing an aesthetic and functional integration into any LED lighting project without technical complications.

Specifications

Colour	Grafito
EAN	8425160260613
Weight (kg)	0.1019
Power (W)	500
Nominal voltage (V)	250V
