Description

The titanium-series recessable plug integrates a standard electrical outlet with USB-A and USB-C ports to allow simultaneous charging of modern devices with maximum efficiency and safety in fixed installations.

Technical characteristics

- Nominal power: 230V, 10A
- Finished material: Titanium
- Includes specific installation framework
- Total compatibility with the Embedded Series

This device optimizes office or home space by powering laptops, mobile phones and tablets without the need for additional external adapters. Its robust design ensures electrical stability in protected environments.

The installation is simple: the frame included in the recess box is placed and the plug body is fixed by screws, ensuring a robust and durable electrical connection according to current regulations without external adapters.

Specifications

Rated current (A)	10
Colour	Titanio
EAN	8425160260736
Material	Titanio
Weight (kg)	0.152
Power (W)	230
