Description

The Supreme Cromada seafood sheath is a specialized cooking tool designed for the efficient and safe extraction of crustaceans, manufactured with a robust zinc alloy body that guarantees durability and daily wear resistance.

Technical characteristics

- Body in reinforced zinc alloy
- Corrosion resistant chrome finish
- Precise closing mechanism for maximum force
- High pressure capacity to break hard shells

These tendrils are essential in professional and domestic culinary environments for processing lobsters, lobsters and crabs with optimal performance. Its solid construction ensures a long service life even under daily intensive use, maintaining structural integrity after multiple opening operations.

They are suitable for dishwashers, facilitating their rapid cleaning and hygienic maintenance after each use without the need for aggressive chemicals. Its ergonomic design allows safe and comfortable handling during the preparation of complex seafood dishes, reducing the physical effort of the user.

To install or handle properly, it is recommended to rinse immediately under hot water after use to remove saline residues that may affect the chrome finish. When opening the clamps, ensure that the locking mechanism works freely before applying pressure on the shellfish shell to avoid damage to the

tool.

Specifications

Width	4.0
Colour	Cromo
EAN	8425160348106
Long	170mm
Measures	Anchura: 40mm
Weight (kg)	0.1454
