Description

Silicone Tapa Pome Spare Part is an essential accessory for renewing the grip of the kitchen lids, ensuring a safe and comfortable grip during daily use in industrial environments.

Technical characteristics

- Materials: Food grade silicone
- Compatibility: Cazo 33451 and Wok 33673
- Resistance: High heat tolerance
- Installation: Direct lace system without tools

This replacement provides a non-slip surface that facilitates the handling of caps, even when they contain hot liquids or boiling foods. Its ergonomic design reduces fatigue in the user's hand by performing repetitive tasks such as removing or serving.

The installation is simple and quick; simply place the new knob on the existing base of the lid until it fits perfectly. This process does not require adhesives or special tools, which allows immediate renovation of the kitchen equipment without prolonged interruptions in its culinary routine.

Specifications
