Description

The Compactfix Artificial Grass Tape Joints is a specialized fastening element designed to join pieces of synthetic grams, ensuring a continuous and robust surface. Made of weather resistant material, its main function is to avoid detachments and ensure the durability of the outdoor installation.

Technical characteristics

- Length: 10 meters
- Width: 15 centimeters
- Colour: Integrated green
- Fixation: Strong and safe without detachments
- Resistance: High out in the open
- Installation: No special tools

Its main use consists of creating invisible unions between artificial grass rolls, allowing to cover large areas such as patios, terraces and gardens with a uniform and professional aesthetic. The resistance of the material ensures that the union remains intact in the face of climate changes.

The installation is quick and flexible, applying the tape directly to the joints of the rolls to seal the space. It does not require additional adhesives or complex machinery, facilitating efficient assembly on any type of flat surface.

Specifications

Width	15 centímetros
Colour	Green
EAN	8425160530389
Long	10 metros
Measures	10 metros de largo por 15 centímetros de ancho
Weight (kg)	0.582
