Description

The 60 mm Handlock Arc combination lock is a robust security device designed to secure objects without the need for a key, using a reprogrammable numerical code opening system. Its technology allows you to configure a custom combination of four digits, ensuring exclusive and secure access.

Technical characteristics

- High-strength metal arc
- Arc dimensions: 60 mm
- Opening system: Reprogrammable numerical code
- Four reels with 10 digits for configuration
- Factory initial code: 0-0-0-0
- No key required for operation

This lock offers reliable and practical protection, ideal for securing luggage, lockers, lockers, trunks, doors and other personal objects that need to be protected against unauthorized access.

The installation is simple: set the desired combination on the rollers according to the manufacturer's instructions. Once configured, the lock is ready for immediate use, providing safety without additional complications.

Specifications

Colour	Red
