Description

The safety cylinder HANDLOCK R15 is a high-strength device made of brass, designed to protect doors and accesses from intrusions through its robust construction and advanced safety system.

Technical characteristics

- Measurements: 30x10mm
- 10 internal piston system
- Materials: High quality brass
- Cycle resistance: Over 100,000
- Protections: Anti-Bumping, Anti-Taladro, Anti-Roture, Anti-Palanca, Anti-Extraction, Anti-Ganzua

Its exceptional durability and multiple layers of protection make it the ultimate solution to guarantee the integrity of access, offering superior security against attempts at manipulation or brute force.

The installation is simple and quick, adapting perfectly to most standard locks. Its compact design allows for seamless technical assembly, ensuring optimum performance from the outset.

Specifications

High	30
------	----

Width	10
Colour	Dorado
Diameter	30x10
EAN	8425160561307
Material	Latón
Measures	30x10mm
Weight (kg)	0.196
