Description

The Handlock R15 safety cylinder is a high strength device made of brass, designed to ensure comprehensive protection of doors and critical accesses through an advanced 10 piston system.

Technical characteristics

- Measurements: 30x30mm
- Material: High quality brass
- System: 10 pistons
- Keys: 5 copies with plastic head
- Lifecycles: >100,000

This cylinder provides an effective barrier against mechanical manipulations, offering certified protection against Anti-Bumping, Anti-Taladro, Anti-Roture, Anti-Palanca, Anti-Extraction and Anti-Ganzua. Its robust construction ensures a high resistance to maintain the security of the building against intrusion attempts.

The installation is simple and quick, adapting to most standard locks without the need for specialized tools. The handling is intuitive thanks to the included keys, facilitating authorized access while maintaining the integrity of the locking system.

Specifications

High	30
Width	30
Colour	Dorado
Diameter	30x30
EAN	8425160563035
Material	Latón
Measures	30x30mm
Weight (kg)	0.252
