Security Cylinder Handlock R15 30x40 Brass Equal Keys

Brand: ALFA

Reference: ALFA 57057

R15 safety cylinder made of brass with 10 piston system and measurements of 30x40mm. Includes 5 identical keys with plastic head. It offers protection against booming, anti-drilling, anti-rotation, anti-leverage, anti-extraction and anti-gang. It guarantees a duration of more than 100,000 cycles for high strength and safety in training applications.

Description

The safety cylinder HANDLOCK R15 is a high strength device made of brass, designed to ensure maximum protection against unauthorized access to doors and locks. Its advanced technology integrates a system of 10 pistons that ensures a durability of more than 100,000 cycles of operation.

Technical characteristics

- Measurements: 30x40mm
- Material: High quality brass
- System: 10 pistons
- Key types: Same grapes
- Life cycle: >100,000 cycles
- Includes: 5 copies of keys with plastic head

It offers comprehensive protection against physical attacks through anti-Bumping, anti-Taladro, anti-Rotura, anti-Palanca, anti-Extraction and anti-Ganzua defenses. Its high strength ensures reliable operation in demanding environments where safety is a priority.

The installation requires precise alignment of the shaft with the door and frame to ensure tight closure. The handling is simple thanks to its robust mechanism, suitable for training systems that allow to manage multiple accesses efficiently without operational complications.

Specifications

High	30
Width	40
Colour	Dorado
Diameter	30x40mm
EAN	8425160570576
Material	Latón
Measures	30x40mm
Weight (kg)	0.283
