## Description

The Polar Workfit Winter Series jacket is a high-resistance work garment designed to ensure comfort and protection in low-temperature environments. Its advanced textile technology combines extreme durability with an ergonomic fit, allowing free movement during intense shifts under adverse conditions.

Technical Features

- 100% Polyester Composition
- Fabric Weight: 280 g/m²
- Front closure with hidden zipper
- Sleeves with tight elastic cuffs
- Spacious pockets with zipper closures
- Elastic waist adjustable via drawcord type cord
- Black design with orange details

This garment offers high resistance to weather and wear, ensuring the worker maintains stable body temperature without sacrificing mobility. Its robust construction makes it suitable for meeting the demands of multiple industrial sectors.

Installation is immediate thanks to its ready-to-use design; simply adjust the waist cord for a personalized and secure fit. No special maintenance is required, only standard washing to preserve its thermal and aesthetic properties over time.
