Description

The safety cylinder HANDLOCK R15 is a high-strength component designed to ensure comprehensive protection of doors and closed systems in demanding environments. Made with advanced technology, it offers exceptional durability and proven reliability in the face of unauthorized handling or opening attempts.

Technical characteristics

- Measurements: 35x35mm
- 10 piston system
- Materials: High quality brass and nickel finish
- Duration: Exceeding 100,000 cycles
- Protection Anti-Bumping, Anti-Taladro, Anti-Breaking
- Anti-Palanca, Anti-Extraction, Anti-Ganzúa protection
- Includes 5 copies of keys with plastic head

Its robust construction provides superior security against physical attacks such as the use of tools or leverage techniques. It is ideal for applications that require a high level of mechanical resistance and protection against expert handling in locksmithing.

The installation is simple thanks to its compact dimensions and the system of equal keys, facilitating training with multiple units without the need for additional special tools. Its nickel finish ensures a professional aesthetic and corrosion resistance over time.

Specifications

High	35
Width	35
Colour	Plateado
Diameter	35x35
EAN	8425160594657
Material	Latón
Measures	35x35mm
Weight (kg)	0.278
