Description

The 80mm 10A ONLEX bell surface push-button is an acoustic signalling device designed to alert occupants by means of a sound bell in standard electrical installations. Its Onlex technology ensures reliable and durable operation, being essential in emergency safety and lighting systems to comply with current regulations.

Technical characteristics

- Nominal power: 10A
- Pulser diameter: 80mm
- Technology: Onlex
- Usage: Interiors
- Installation: Fixed on any surface
- Contact: Dry

This device offers a clear and powerful sound alert, necessary for stays of all kinds where immediate and effective signaling is required. Its compact design allows discreet integration without compromising the functionality of the acoustic warning system.

The installation is simple and quick, allowing it to be mounted on any flat surface available within the enclosure. It is only necessary to connect the device to the appropriate electrical grid to activate its

optimal operation and ensure the operability of the alarm circuit.

Specifications

High	8
Width	2.5
Colour	White
Diameter	80 mm
Diameter embedment (mm)	80
EAN	8425160206673
Material	ABS
Measures	8 x 2.5
Weight (kg)	0.061
