Description

The Onlex socket base integrates five power sockets with a pre-installed light switch and wiring, designed to distribute mobile energy in spaces that require environmental protection against dust and moisture.

Technical characteristics

- Number of shots: 5 units
- Integrated Switch: ON/OFF with light indicator
- Level of protection: IP54 (resistance to dust and occasional humidity)
- Nominal voltage: 250V
- Maximum amperage: 16A
- Cable included: 1.5m high strength insulated PVC
- Ground connection: Yes in all shots
- Colour: Black with foldable safety cover and automatic closure
- Child protection: Integrated into design

This device guarantees a safe electrical distribution thanks to its earth connections and robust construction, being essential to avoid risks in environments with exposure to elements or intensive use.

Its installation is simple and quick, allowing to connect tools, lighting or electronic equipment without the need for complex works. Ideal for workshops, temporary works, garages or wet areas of the home

where safety and accessibility are priority.

Specifications

Colour	Black
EAN	8425160263591
Intensity	16A
Long	1,5 m
Material	ABS
Weight (kg)	0.658
Power (W)	3680
Protection	IP54
Nominal voltage (V)	250V
