Onlex Polipropylene 3T Independent Base Cable 1.5m

Brand: ALFA

Reference: ALFA 26438

Polypropylene Onlex socket base with three independent sockets and 1.5m cable. Includes integrated ON/OFF switch and ground connection for electrical safety. It supports 250V and 16A with child protection. Designed to simultaneously power multiple devices in homes, offices or workshops, ensuring safe distribution and durability in residential or commercial facilities.

Description

The Onlex Polypropylene 3T is an electrical device designed to distribute energy safely and efficiently in various environments. Made with resistant polypropylene technology, it integrates three independent sockets with central ON/OFF switch for total supply control.

Technical characteristics

- High strength insulated cable: 1.5 meters
- Nominal voltage: 250V
- Maximum amperage: 16A
- Body material: White polypropylene
- Protection against accidental contact
- Integrated earth connection in each socket
- Centralised independent switch

This device guarantees the simultaneous supply of multiple devices without compromising electrical safety, being essential to avoid overloads and protect connected equipment in homes or offices.

Its robust design allows its use in workshops or commercial spaces where multiple devices are required to be connected to a single certified power supply, ensuring durability and operational reliability.

For installation, it is recommended to connect the cable to a certified power supply, ensuring that the voltage does not exceed 250V. The central switch allows you to turn off all single-stroke sockets, making it easier to maintain or save energy by disconnecting multiple devices simultaneously.

Specifications

Rated current (A)	16
Colour	White
EAN	8425160264383
Intensity	16A
Long	1,5mt
Length	5 metros
Material	Polypropylene
Weight (kg)	1.563
Power (W)	3680
Nominal voltage (V)	250V
