Product sheet

4-socket Onlex polypropylene cable 1.5m base

Brand: ALFA

Reference: ALFA 26514

Onlex 4-take polypropylene socket base with independent ON/OFF integrated switch. It has ground connection for electrical safety, 1.5m insulated cable of high strength and durability. It supports 250V voltage and 16A amperage, allowing multiple devices to be powered simultaneously in homes, offices or workshops efficiently and safely.

Description

The Onlex 4-take socket base is a compact electric distributor made of white polypropylene, designed to manage the power of multiple devices safely and efficiently in homes or offices.

Technical characteristics

- Number of shots: 4 units
- Body material: Polypropylene
- Nominal voltage: 250V
- Maximum amperage: 16A
- Cable included: 1.5 meters high strength insulation
- Switch: Independent integrated ON/OFF
- Ground connection: Yes in all shots

This equipment allows you to simultaneously connect and power several electronic devices, tools or lighting without overloading the main power grid. The integration of the switch facilitates centralized control of the power supplied to the connected devices.

For installation, it is recommended to locate the base at an accessible point near the power supply, ensuring that the wiring is protected and the sockets are free of obstacles for safe and comfortable use in any environment.

Specifications

Colour	White
EAN	8425160265144
Intensity	16A
Long	1,5mt
Material	Polypropylene
Measures	Polipropileno
Weight (kg)	0.409
Nominal voltage (V)	250V
