Description

The Onlex Polypropylene 5T plug base is a robust electrical solution designed to deliver energy safely and efficiently in homes, offices and workshops. Made of high durability materials, it guarantees a stable operation in response to the demands of everyday use.

Technical characteristics

- Body in resistant white polypropylene
- 5 simultaneous sockets
- Integrated ON/OFF standalone switch
- Ground connection at each take
- Nominal voltage: 250V
- Maximum amperage: 16A
- High strength insulated cable: 1.5m
- Integrated child protection

This device allows to power multiple electronic devices at the same time without compromising the safety of the circuit. Its compact design facilitates installation in reduced spaces while maintaining a clean and professional look.

The installation is simple: connect the cable to the main power grid, secure the switch in ON position and distribute the devices in the available sockets. Its reliability makes it a preferred option for modern offices, workshops or homes that require constant power.

Specifications

Rated current (A)	16
Colour	White
EAN	8425160265823
Intensity	16A
Long	1,5mt
Material	Polypropylene
Weight (kg)	1.88
Power (W)	3680
Nominal voltage (V)	250V
