Onlex 6-socket plug base IP54 with switch and 1.5m cable

Brand: ALFA

Reference: ALFA 26707

Onlex 6 socket base with integrated light switch and 1.5m insulated PVC cable. Protected at IP54 level against dust and occasional humidity, it includes ground connection and safety folding cap with automatic closure. Operated at 250V and 16A, it guarantees a safe electrical distribution in works, workshops or homes.

Description

The Onlex 6 sockets is a compact electric distributor designed to offer multiple secure connection points in reduced spaces, ensuring efficient distribution of energy by means of certified earth-connected sockets.

Technical characteristics

- Maximum power: 250V / 16A per socket
- IP54 level of protection against dust and moisture
- Cable included 1.5m in insulated PVC
- Integrated light switch ON/OFF
- Security folding lid with automatic closure
- Child protection integrated into the sockets
- Housing material: resistant black technical plastic

Its versatility allows critical applications in construction works, industrial workshops and domestic environments where electrical mobility is required without compromising user safety. The power distribution is ideal for power tools or equipment that demand multiple simultaneous connections.

The installation is simple: connect the main wiring to the designated input and fix the base on the desired surface. The central switch simultaneously controls all sockets, facilitating general shutdown when no power is needed, optimizing electrical consumption in any operating environment.

Specifications

Rated current (A)	16
Colour	Black
EAN	8425160267070
Long	1,5 m
Material	Plástico
Weight (kg)	0.728
Power (W)	3680
Maximum power (W)	250
Protection	IP54
