Description

The 3T White Onlex Polypropylene Base Without Cable is a compact electrical distribution system designed to connect multiple devices simultaneously with safety and efficiency. Made of resistant polypropylene technology, it guarantees durability in domestic or professional environments.

Technical characteristics

- Nominal power: 250V / 16A
- Number of shots: 3
- Material: White polypropylene
- Ground connection: Yes
- Child protection: Integrated
- Wiring: No wire (fixed base)

This product allows to power several devices safely, avoiding overloads and facilitating the management of wiring in reduced spaces. Its robust design protects the sockets against unauthorized access by children.

The installation is simple: it is attached directly to the desired wall or surface without the need for complex external wiring. Once mounted, it offers a clean and orderly solution to connect electronic equipment, lighting or appliances in homes, offices or workshops.

Specifications

Colour	White
EAN	8425160267209
Material	Polypropylene
Weight (kg)	0.95
Power (W)	250
