Description

This professional assortment integrates 400 polished steel round key rings, optimized for the display and efficient management of tools in hardware stores, mechanical workshops and industrial warehouses. Its circular design facilitates fast grip and allows for clear visual organization, significantly reducing operational search times.

Technical characteristics

- Quantity: 400 units per assortment
- Material: Steel with polished finish
- Form: Round
- Usage: Tool and key display
- Finished: Polishing to facilitate handling

These rings are essential to maintain order in intensive work areas, allowing keys, screwdrivers or small utensils to be hung safely and accessible. Its durability ensures that they support daily use without becoming deformed or losing its structural functionality under normal operating conditions.

The installation is immediate when fixing the rings on wooden, metal or plastic panels using standard screws. It does not require specialized tools or complex assembly processes, which expedites the start-up of the organization system in any work space without operational interruptions.

Specifications

EAN	8425160408022
