Product sheet

1.5m 2x0.75mm² white connection cable with switch

Brand: ALFA

Reference: ALFA 27548

White connection cable with European type C plug, manufactured under H03VVH2-F standard. Features armored line ends via ferrules for safe installation. Length of 1.5 meters with 2 x 0.75mm² internal conductor supporting up to 250V and max 3A.

Description

This integrated switch connection cable is a safe electrical solution designed for power distribution in residential and office environments. Manufactured under H03VVH2-F standard, it ensures reliable performance when connecting devices to the electrical grid via a European type C plug.

Technical Specifications

- Total length: 1.5 meters
- Conductors: 2 x 0.75mm²
- Nominal voltage: 250V
- Maximum current: 3A
- Outer color: White
- Insulation material: H03VVH2-F
- Armored ends with ferrules for quick connection
- Includes manual line switch

Its compact and robust design makes it an essential component for home repairs, adapting floor or table lamps to existing power sources without the need for complex installations. It allows direct management of current flow from the cable.

Installation is simple: connect the plugged end to the main grid and the other end to the device using the pre-installed ferrules. The switch allows controlling current flow directly from the cable, facilitating safe shutdown of the connected electrical equipment without interrupting the main source.

Specifications

Colour	White
EAN	8425160275488
Long	0.07
Length	5 metros
Weight (kg)	1.196
Power (W)	3
Nominal voltage (V)	250V
