Product sheet

Adjustable Round LED Panel 230mm 18W 3CCT

Brand: ALFA

Reference: ALFA 27654

230mm and 18W adjustable round LED panel with 3CCT technology to vary color temperature. Made of ABS+PS flame retardant housing and acrylic panel, it offers 1880 lumens and IP20 protection grade. Includes adjustable anchor between 65-180mm and instant electronic ignition with a light angle greater than 120°.

Description

The Adjustable Round LED Panel is a modern 18W light solution and 3CCT technology, designed to provide accurate color temperature control in any environment. Its robust construction ensures instant ignition and uniform light distribution with high performance.

Technical characteristics

- Power: 18W
- Luminosity: 1880 lumens
- Diameter: Ø 225mm
- Thickness: 2,5cm
- Housing material: ABS+PS flame retardant
- Light panel: Acrylic LED
- Energy classification: F
- Protection: IP20
- Opening angle: greater than 120°
- Adjustable anchor: range of 65-180mm
- Selector: 3 temperatures (cold, neutral, warm)

Its versatility allows to adapt the lighting to specific needs, improving the visual comfort and aesthetics of residential or commercial spaces. The ability to vary the color temperature facilitates the creation of different atmospheres depending on the time of day or the activity performed during the stay.

The installation is simple by means of predefined holes for adjustable anchoring, which makes it easier to mount on flat walls or ceilings without additional technical complications. This design allows a discreet and functional integration in various architectural environments.

Specifications

Opening angle	120
Energy classification	F
Colour	White
Diameter	Ø225mm
Driver included	Yes
EAN	8425160276546
Long	2.5
Lumens (lm)	1880
Material	ABS
Weight (kg)	0.408
Power (W)	18
Protection	IP20
Nominal voltage (V)	180-240
Shape	Round
