Description

This assortment of round key rings includes 200 units essential for access management and safety in industrial, commercial or residential environments. Made of resistant materials, these tools guarantee a fluid and durable operation, adapting to various standard lock systems.

Technical characteristics

- Quantity: 200 units
- Form: Round
- Type: Key rings
- Material: Resistant steel
- Finished: Polishing to avoid oxidation

These rings offer a versatile solution for ticket control, allowing fast and safe access without compromising the integrity of the locking mechanism. Its compact design facilitates handling in small spaces or with high user rotation.

The installation is immediate by inserting them in the corresponding cylinders, requiring only basic locksmithing tools for placement and final adjustment according to the specifications of the safety system implemented. This simple maintenance ensures product longevity against frequent use.

Specifications

EAN	8425160425623
Material	Steel
Weight (kg)	0.27
Shape	Round
