Description

The assortment of crescent key rings is a robust and versatile solution for the efficient management of exhibition spaces, optimizing the ordering of merchandise in shelves and commercial counters by means of a design that facilitates the display of the product.

Technical characteristics

- Includes a complete assortment of 200 units
- Ergonomic half moon design for easy grip
- Durable material with high durability in continuous use
- Smooth finish that prevents the accumulation of dirt

These rings facilitate quick access to small products and accessories, improving customer experience through a clear and organized display at points of sale. Its construction ensures operational efficiency without need for special maintenance during its life cycle, ideal for mechanical workshops or automotive services that require secure gripping tools.

The installation is immediate by inserting them directly into existing hooks or brackets without the need for additional tools or complex adjustments, allowing quick assembly in any commercial environment. This system allows the inventory to be reorganized quickly and to maintain the impeccable presentation of the premises.
