Product sheet

Brushless Worgrip 20V Impact Driver without battery

Brand: ALFA

Reference: ALFA 48860

The 20V Brushless WorGrip Impact Key is a professional battery-free device designed to reduce heating during intensive use. Opera with 230V-50Hz voltage and offers adjustable speeds up to 2300 RPM together with maximum impacts of 3000 BPM.

Description

The 20V Brushless WorGrip Impact Key is a professional electrical tool designed for high-demand applications, optimizing performance using a brushless engine that ensures greater energy efficiency and operational durability in extended cycles.

Technical characteristics

- Brushless anti-heating engine technology
- Nominal voltage 230V-50Hz
- Variable speed range: 1600, 1900 and 2300 RPM
- Impact frequency: 1800, 2400 and 3000 BPM
- Maximum torque of 420Nm
- Standard 1/2 inch hexagonal anchor
- Integrated LED lighting system

This tool offers a perfect balance between raw power and precise control, allowing the tightening of screws and nuts in demanding industrial environments without compromising the integrity of the material or the safety of the operator during continuous work.

Installation is immediate by connecting any compatible 20V WorGrip system battery, instantly activating the engine. The handling is facilitated by the belt clamp included for fast transport and the PVC case that protects the internal components against blows and dust during the transfer between works or workshops.

Specifications

EAN	8425160488604
Long	15
Weight (kg)	2.112
