Description

The Rechargeable Korpass LED Tubular Flashlight is a professional 30W lighting device designed to provide maximum versatility in demanding environments. Its advanced technology combines high luminous flux with multiple operating modes, allowing you to adapt to various visibility needs from day-to-day tasks to emergencies.

Technical characteristics

- Maximum power: 30W
- Luminous flux: 4000 lumens
- Battery: 4000mAh rechargeable lithium
- Autonomy: 1 to 6 hours depending on mode
- Charging time: 3 hours
- Range: 240 meters
- Protection: IPX4 against rain and splash
- Connection: USB-C cable
- Material: Aluminium alloy
- Includes: Incorporated magnet and tripod

It stands out for its multifunction capacity, integrating fluorescent light effects, Y type light mode and diffuser for hanging lamp simulation. In addition, it operates as Power Bank, allowing mobile and other

electronic devices to be charged in critical situations where energy is scarce.

The installation is immediate thanks to its ergonomic design with integrated tripod and magnetic base for secure fixation on metal surfaces or steel structures. Its information screen shows the state of charge and operation, facilitating intuitive handling without the need for complex physical switches.

Specifications

Colour	Black
EAN	8425160279516
Long	Tubular
Length	Without cable
Lumens (lm)	4000
Material	Aluminio
Weight (kg)	390g
Depth	Tubular
