Onlex Embedded Graphite Dimmer 40-250W

Brand: ALFA

Reference: ALFA 28114

The Onlex S-EMPOTRAR Grafito recessed regulator controls the light intensity in 230V and 10A circuits. Its graphite housing ensures efficient thermal dissipation for residential or commercial installations. This device allows to manage the energy flow accurately, optimizing the electrical consumption without sensitive electronic components.

Description

The Onlex S-EMPOTRAR Grafito recessed regulator is a lighting control device designed to effectively manage the intensity of lighting in residential and commercial circuits. This electrical component operates under robust technology, allowing precise regulation of the energy flow to optimize consumption and ensure safe operation in fixed installations.

Technical characteristics

- Nominal power: 40 to 250W
- Maximum current: 10A
- Service voltage: 230V
- Body material: Graphite
- Installation: Empotrable
- Compatibility: Requires frames of the same ONLEX range

This regulator offers a fine control over the luminous intensity, contributing to the energy efficiency and visual comfort of users. Its compact design in graphite material ensures an aesthetic and lasting integration within any standard electrical frame.

The installation is carried out by partitioning or walls, connecting the terminals according to the manufacturer's scheme. It is essential to verify compatibility with the corresponding mounting frames

before proceeding with the final fixation of the device to ensure correct and safe assembly.

Specifications

Rated current (A)	10
Colour	Grafito
EAN	8425160281144
Material	ABS
Weight (kg)	0.094
Power (W)	40
Nominal voltage (V)	230V
