Onlex Horizontal Graphite Recessed Frame with 4 Elements in ABS Finish

Brand: ALFA

Reference: ALFA 28119

The ONLEX S-EMPOTRAR recessable frame features ABS finish and horizontal configuration with four integrated elements. Its design facilitates fast and safe installation in metal structures, ensuring mechanical stability and compatibility with standard cabling systems for high-performance industrial applications.

Description

The Onlex horizontal recessable graphite frame with four integrated elements is a lighting system designed to integrate perfectly into flat surfaces, offering an aesthetic and functional solution by its robust ABS finish and horizontal configuration.

Technical characteristics

- External finish in resistant ABS material
- Horizontal Mounting Settings
- Structured composition of 4 individual elements
- Specific design for embedded installation in metal structures
- Compatibility with industrial standard cabling systems

This product provides a uniform and discreet lighting, suitable for highlighting architectural textures or defining zones within an interior space without generating direct glare in the end user. Its construction guarantees mechanical stability and total compatibility with high-performance infrastructures.

The installation requires a precise cut on the surface where the device will be located to accommodate the four internal elements, ensuring that the frame is leveled with the final plane. This process guarantees a clean and professional visual integration, maintaining the aesthetics of the environment without unnecessary protrusions.

Specifications

Colour	Grafito
EAN	8425160281199
Material	ABS
# Elements	4 elementos
Weight (kg)	0.0763
