Description

The S-EMPOTRAR vertical recessable frame of the Onlex series is a technical solution designed for the safe and aesthetic integration of electronic devices into panels or wall structures. Made with high-strength ABS sheeting technology, it guarantees durability and a professional finish in industrial or commercial environments where robust component attachment is required.

Technical characteristics

- Material: ABS Chapa
- Configuration: 2 items
- Orientation: Vertical
- Finished: Smooth black surface
- Assembly system: Embedded in structure

This system allows the orderly installation of multiple modules, optimizing the available space and protecting the machinery against accidental shocks or environmental dust. Its modular design facilitates panel expansion according to operational needs without requiring major structural modifications.

The installation is done by directly inserting the frame into the prepared wall slot, ensuring precise alignment before attaching the internal elements with the supplied screws. The process is fast and does not require specialized tools, allowing efficient assembly in a short time.

Specifications

Colour	Grafito
EAN	8425160281205
Material	ABS
# Elements	2 elementos
Weight (kg)	0.0375
Type of installation	Flush-mounted
