Recessed Frame S-RECESS crystal white Onlex 4 elements

Brand: ALFA

Reference: ALFA 28122

Onlex white glass recessing frame composed of four structural elements. This system allows the integration of glass panels with transparent finish in modern architectural applications. Its design facilitates a simple and precise installation within existing partitioning, ensuring uniform mechanical and aesthetic stability through robust joints and smooth finishes without visible hinges.

Description

The S-EMPOTRAR recessable four-element white glass frame is an integral solution for the integration of glass panels into existing partitioning. This system combines a transparent aesthetic finish with mechanical robustness, allowing precise insertion into modern architectural structures without compromising the stability of the whole.

Technical characteristics

- Onlex white glass finish
- Configuration composed of four structural elements
- System specifically designed for recessable installation
- Minimalistic profile with robust joints and smooth finishes without visible hinges

The combination of materials ensures superior durability against the usual wear and tear of daily use, maintaining characteristic brightness and visual integrity over time. This design facilitates the creation of safe physical barriers while preserving the visual lightness typical of glass profiles in residential and commercial applications.

For a successful installation, it is essential to make a precise adjustment of the measurements of the existing gap before proceeding with the assembly. It is recommended to execute the necessary cuts

using appropriate tools and rigorously verify the leveling of the components before definitively fixing the profiles, thus ensuring a smooth and safe operation of the sheets associated with the frame.

Specifications

Colour	White
EAN	8425160281229
Material	Cristal
# Elements	4 elementos
Weight (kg)	0.2333
