Onlex Natural Crystal Inset Frame 4 Elements

Brand: ALFA

Reference: ALFA 28123

Onlex natural glass recessed frame composed of four structural elements. This system guarantees an aesthetic integration on flat surfaces by means of a transparent and robust finish. The four-piece configuration facilitates precise assembly in architectural niches, offering mechanical stability and long-term durability without the need for additional surface treatments.

Description

The recessable natural glass frame Onlex is a locksmith system designed to integrate cupboards and furniture discreetly into the home architecture, offering an elegant aesthetic that adapts to any interior environment without altering the visual design of the shelves.

Technical characteristics

- Natural glass surface finish
- Configuration of 4 modular elements
- System designed for recessed installation
- Profile compatible with wood or metal structures

This system allows to completely hide the mechanisms of opening and closing, achieving a perfect integration with the existing furniture. Its minimalist design eliminates the visible lines typical of traditional cabinets, raising the aesthetic level of living space while maintaining the necessary robustness for intensive daily use.

The installation requires a precise adjustment of the lateral and upper profiles within the structure of the furniture. It is essential to accurately measure the cavities before mounting to ensure that the four elements fit perfectly without slack, thus ensuring smooth operation and a fully recessed appearance.

Specifications

Colour	Natural
EAN	8425160281236
Material	Cristal
# Elements	4 elementos
Weight (kg)	0.2342
