S-EMBED FRAME in black ONLEX glass with 5 elements

Brand: ALFA

Reference: ALFA 28185

Onlex black glass recessing frame composed of five structural elements. This system guarantees an aesthetic integration into walls with reflective finish and superior durability. Its modular design facilitates precise installation in predefined niches, ensuring a stable and professional assembly without the need for additional specialized tools for the final assembly of the complete set.

Description

The S-EMPOTRAR recessing frame in black glass Onlex is configured with five independent structural elements to ensure robust fixation and superior aesthetic integration in lock and glass applications. This modular system allows safe accommodation of crystals, offering a clean and professional appearance that elevates the visual quality of any modern architectural installation.

Technical characteristics

- Surface finish: Brilliant black crystal
- Composition: 5 independent modular elements
- Assembly system: Embedded for integration into walls or structures
- Material: High-strength metal profile

The uniformity of the black finish ensures superior aesthetic coherence in demanding projects, providing a durable solution for safe glass housing with an elegant profile that perfectly adapts to contemporary environments.

For installation, it is necessary to make a precise cut of the gap according to the exact measurements of the frame. The five components must be assembled to form the complete structure before attaching it to the final support, thus ensuring the necessary stability without requiring additional specialized tools

for assembly of the assembly.

Specifications

Colour	Black
EAN	8425160281854
Material	Metal
# Elements	5 elementos
Weight (kg)	0.2883
Type of installation	Flush-mounted
