Description

The Korpass Warm Round Night LED Light is an auxiliary lighting device designed to provide a soft and pleasant ambient light in indoor spaces. Operates with efficient LED technology, offering a warm color temperature of 3000 K that contributes to a relaxing atmosphere without generating annoying glares during the night.

Technical characteristics

- Power: 1 W
- Luminous flux: 5 lumens
- Color temperature: 3000 K
- Operating voltage: 230 V
- Frequency: 50 Hz
- Design: Round and compact

This system generates a dim lighting perfect for bedrooms, corridors or children's rooms, creating a safe and welcoming environment. Its low energy consumption and diffuse light emission guarantee optimal visual comfort without altering the natural rest of the user.

The equipment incorporates an integrated light sensor that automates its operation, activating or deactivating the ignition according to the ambient intensity. For installation, it connects directly to the standard 230 V power grid and must be located in areas with limited access to natural light to maximize the efficiency of the twilight sensor.

Specifications

Colour	White
Diameter	redondo
EAN	8425160286453
Intensity	1 W
Long	Redondo
Weight (kg)	0.0084
Power (W)	1
Nominal voltage (V)	230V
