Description

The 5W Korpass LED Front Bike Lantern is a professional lighting device designed to ensure visibility and safety in night travel. Its high-performance technology provides a powerful and stable light, essential for detecting obstacles and being detected by other users on dark routes.

Technical characteristics

- Maximum power: 5W
- Luminosity: 500 lumens
- Lighting range: 100 meters
- Battery: Rechargeable Lithium 1200mAh
- Full charging time: 3 hours
- Operational autonomy: 4 hours
- Degree of protection: IPX4 (splatter resistance)
- Load connection: USB / TYPE-C
- Support adjustment angle: 100 degrees

Its main use is to illuminate the road in front of the cyclist, allowing to detect obstacles and be detected by other road users. Intense light significantly improves safety at night departures or under low luminosity conditions.

The installation is quick and easy thanks to its adjustable grip clamp that allows you to fix the device at different angles without additional tools. The versatile charging cable makes it easy to charge on any

port compatible with USB-C technology, ensuring immediate preparation before each output.

Specifications

High	500
Opening angle	100
Colour	Black
EAN	8425160287733
Length	10 metros
Lumens (lm)	400lm
Material	Aleación de aluminio
Weight (kg)	0.133
Depth	100 grados
