Description

The 1200x600mm Surface Panel LED Matel Frame is an essential perimeter enclosure element for installation on suspended roofs. Made of high strength aluminum and finished in white powder paint, it guarantees a robust aesthetic and functional integration with bright panels.

Technical characteristics

- Material: High quality aluminium
- Measurements: 1200x600mm
- Finished: White powder paint
- Type of installation: Ceiling surface
- Includes mounting and fixing accessories

Its robust design provides long-term durability while maintaining a clean profile that highlights panel lighting. The treated surface offers optimal resistance to corrosion and environmental wear, ensuring a uniform and professional appearance in any commercial or industrial environment.

The installation is easy thanks to the fixing system designed for flat surfaces. It is recommended to follow the manufacturer's instructions to ensure a perfect alignment with the LED panels, thus ensuring an impeccable final finish and efficient operation of the integrated lighting system.

Specifications

High	120
Width	60
Colour	White
EAN	8425160288860
Material	Aluminio
Measures	1200x600mm
Weight (kg)	0.672
Type of installation	Surface
