Display box for terminal lugs 800 pcs 8 sizes

Brand: ALFA

Reference: ALFA 28931

This display box contains 800 terminal lugs in 8 different sizes, suitable for cables from 0.5 mm² to 2.5 mm². Includes green, blue, gray, black, red, orange, white, and yellow colors. They facilitate a clean and safe connection, avoiding loose wires and faulty contacts in electrical installations, panels, and automation systems.

Description

Terminal lugs are essential components for safe electrical connections, designed to ensure a robust union between conductors in distribution panels and control cabinets. This display box contains a complete batch of 800 units, covering eight different sizes adapted to cable sections from 0.5 mm² to 2.5 mm², ensuring compatibility with various installations.

Technical Specifications

- Total content: 800 terminal lugs
- Includes 8 different sizes
- Section range: 0.5 mm² to 2.5 mm²
- Available colors: green, blue, gray, black, red, orange, white, and yellow
- Material: durable plastic for electrical insulation
- Design with organized compartments for efficient storage

These connectors facilitate a clean and safe assembly, eliminating the presence of loose wires that could generate short circuits or faulty contacts. Their use significantly improves cable durability by providing a stable mechanical fixation that supports typical vibrations in industrial environments.

Installation is simple: insert the stripped cable into the base and twist the lug until the necessary compression is achieved. This system allows for quick connections without the need for additional tools, optimizing assembly time in electrical panels and complex automation systems.

Specifications

Colour	Yellow
EAN	8425160289317
Material	Plástico
Weight (kg)	0.165
