## Open Handlock Security Protective Shield in Brass

Brand: ALFA

Reference: ALFA 49033

The Handlock Open Security Shield is a brass reinforcement for standard European cylinders, designed to strengthen the lock and protect the mechanism from intrusion. Its gold finish is integrated into metal or wood hardware, offering superior mechanical strength and durability in residential or commercial security environments with CE certification.

### Description

The Handlock Open Security Shield is a specialized reinforcement device designed to shield the cylinder of the locks, ensuring maximum integrity of the opening system. Made of high-strength technology, its main function is to stop attempts at extraction or forced manipulation of the internal mechanism, ensuring physical protection of the point of entry.

#### Technical characteristics

- Aesthetic finish in superior quality brass.
- Open model compatible with standard European cylinders.
- EC security certification in force.
- Durable material suitable for wooden and metal doors.
- Design that structurally strengthens the existing lock.

Its application is fundamental in environments where it is necessary to protect the point of entry against unauthorized access, offering a solid physical barrier that deters intruders and protects the value of property guarded by the door. This brass reinforcement for standard European cylinders integrates perfectly into metal or wood hardware, providing superior mechanical strength and durability in residential or commercial security environments.

The installation is direct on the standard European cylinder without the need for complex tools, ensuring

a fast and secure assembly that preserves the original functionality of the hardware while raising its level of protection against mechanical manipulations. The gold finish adapts to various architectural styles without compromising the structural robustness of the system.

Specifications

|             |               |
|-------------|---------------|
| Colour      | Dorado        |
| EAN         | 8425160490331 |
| Material    | Metal         |
| Weight (kg) | 0.132         |
