VATTON 300W Multi-Tool with Power Regulator and Rigid Case

Brand: ALFA

Reference: ALFA 49047

The Multi-Tool VATTON is a 300W cutting and polishing device with power and speed regulator between 15000-22000 RPM. Its 3rd degree oscillation angle allows you to work accurately on complex surfaces. Includes scraping, segmenting and immersion saw, auxiliary handle and rigid PVC case for safe transport.

Description

The Multi-Tool VATTON is a versatile 300W equipment designed to run precise cutting, polishing and scraping on multiple surfaces. Its powerful engine ensures constant performance while the regulator allows to adjust the speed according to the specific task.

Technical characteristics

- Power: 300W
- Speed range: 15000-22000 RPM
- Oscillation angle: 3rd
- Includes scraping, immersion and segmenting saw
- Accessories included: base triangle, two sandpapers, auxiliary handle and allen key
- Storage: rigid PVC case

This tool facilitates fine finishing work and surface preparation with great control. The combination of high speed and limited oscillation optimizes efficiency in professional carpentry and DIY applications, allowing complex parts to be handled safely.

The installation is immediate by connecting the equipment to the standard power grid. It is recommended to hold the workpiece firmly and use the auxiliary handle for greater stability during deep cutting or prolonged polishing operations, always ensuring the use of the briefcase to store the accessories properly.

Specifications

EAN	8425160490470
Long	330 mm
Weight (kg)	2.49
Power (W)	300
Revolutions per minute (RPM)	15000-22000
Nominal voltage (V)	230V
