Modular LED Regulator 5 modules DIN rail

Brand: DINUY

Reference: DINUY RE EL5 LE3

Modular regulator for LED lamps with end-of-phase control via push button, potentiometer or 0/10V signal. Includes state memory after power cuts and regulation curve selector. DIN rail mounting with Master/Slave system to expand controlled power by interconnecting multiple units.

Description

The modular regulator for LED lamps is an advanced electronic device designed for precise control of light intensity in modern lighting systems. It uses end-of-phase cutting technology, allowing smooth and efficient dimming without generating flicker or electrical noise. Its versatility makes it ideal for residential, commercial and industrial environments where flexible light management via different input methods is required.

Technical features

- Control via Push Button, Potentiometer or 0/10V and 1/10V signal.
- Memory and Auto function to recover state after power cuts.
- Integrated potentiometer for direct regulation from the device.
- Adaptable selector to adjust the regulation curve according to lamp type.
- Master/Slave configuration to expand power with multiple interconnected units.
- Anti-panic input that activates maximum lighting during alarms.
- DIN rail mounting via DRA adapter and click fixation.
- Nominal voltage of 230 V, frequency 50 Hz and consumption of 1.5 W.
- Dimensions: 87.5 mm wide, 90 mm high and 65 mm deep.
- Core cross-section compatible up to 6 mm^2.
- Matte thermoplastic material in grey RAL 9003, IP20 rating.

This regulator offers significant advantages by allowing intelligent energy management and visual

comfort. The ability to remember the last dimming position ensures that lighting is restored exactly as the user left it, improving the daily experience. Additionally, the Master/Slave configuration option facilitates system expansion in large spaces without the need for complex individual controls, optimizing both installation and future maintenance.

Specifications

Memory	Yes
High	6.5
Width	9.0
EAN	8422447015782
Manufacturer	DINUY
Power (W)	1.5
Protection	IP20
Adjustable	Yes
