RJ45 H Cat 6 Data Terminal Box

Brand: TELEVES

Reference: TELEVES 209910

This is a terminal data log or rosette with female RJ45 Cat 6 UTP connector, designed to act as a cutting point and test on data networks. It incorporates category 6 of origin, allowing its installation in RTRs, workshops, classrooms or connecting cabinets.

Description

The RJ45 H Data Terminal Box is a termination log designed as a cut-off point and test on ICT2 networks, acting as a physical interface between the wired infrastructure and the final equipment. Its technology allows orderly management of connections within RTRs, workshops, classrooms or connecting cabinets, ensuring the integrity of the data link through a robust high-grade connector.

Technical characteristics

- Material: High strength ABS plastic.
- Connector included: RJ45 Female UTP Category 6.
- Supported cabling category: Cat 6 UTP.
- Design: Rosette for installation on wall or flat surface.
- Identification area: Dedicated area for registration labelling.
- Compatibility: Suitable for cables with different types of shielding.

This device ensures a stable and fast connection, taking advantage of the Cat 6 transmission speed for demanding network applications. Its construction in ABS protects the internal components against mechanical and environmental wear, facilitating easy maintenance and prolonging the service life of the installation in dynamic environments such as offices or educational centers.

The installation is direct on the surface where the access point is required. The record is set with the appropriate means to hold it, the wiring is inserted through the input area and connected to the included female RJ45 connector, ensuring a correct tightening of the pins to prevent transmission

failures.

Specifications

EAN	8424450176801
Material	ABS
