Duplex fiber optic patch cord SC/APC single-mode 20m

Brand: TELEVES

Reference: TELEVES 232653

Single-mode, pre-connected fibre optic duplex hose with SC/APC connectors, designed for point-to-point networks indoors. It has LSFH cover and Euroclass Dca-s2,d2,a1 for maximum security. It includes short boot at both ends that reduces the radius of curvature and facilitates installation in pipelines without increasing attenuation by unwanted curvatures.

Description

The SC/APC singlemode LSFH pre-connected fibre optic duplex hose is an essential component for high-speed data transmission networks in indoor environments. Its technology allows efficient connection between equipment, ensuring a robust and stable information transfer. Designed specifically for point-to-point applications, it optimizes performance by using the same spectral window for up and down traffic.

Technical characteristics

- Length: 20 meters
- Type of fibre: Monomode (SM)
- Connectors: SC/APC at both ends
- Settings: Duplex
- Cover: LSFH (Low Smoke Zero Halogen)
- Euroclass: Dca-s2,d2,a1
- Extremos: Short boot facilitating installation
- Mechanically out-of-date connectors at one end
- Includes identifiers for each fibre

Thanks to its short pots, this wiring allows smaller curvature radii, making better use of the space in connection areas and avoiding increases in attenuation due to unwanted curvatures. The LSFH cover ensures low emissions of smoke and toxic gases in case of fire, while the Euroclass Dca ensures its

safety in indoor installations.

The installation is simple due to the mechanically out-of-date connectors at one end, which facilitates their passage through narrow channels. The sliding along the wiring routes is favored, reducing the space needed for the final connection. Its high reliability and low levels of attenuation make it an optimal solution for critical networks.

Specifications

EAN	8424450265642
Length	20 metros
