Product sheet

Duplex single-mode fiber optic patch cord 45m SC/APC

Brand: TELEVES

Reference: TELEVES 232636

Single-mode duplex hose (SM) of interior fiber optics with SC/APC connectors and length of 45 meters, designed for point-to-point networks with two-way traffic. It has LSFH cover, short boot ends for reduced curvature radius and mechanically out-of-date connectors at one end to facilitate installation in pipelines without increasing attenuation.

Description

The LATIG.DUPLEX FO SM INT.LSFH DCA SC/APC 45M is a single-mode duplex fiber optic hose designed specifically for indoor optical networks. Its LSFH (Low Smoke Halogen) technology guarantees low smoke and halogen emissions in case of fire, ensuring safety in closed environments such as offices or data centers. This pre-connected cable facilitates fast and reliable connection between network elements, optimizing the performance of data traffic.

Technical characteristics

- Length: 45 meters
- Type of fibre: Monomodo (SM), ITU-T standard G.657.A2
- Connectors: SC/APC on both ends, mechanically out of date
- Cover: LSFH (Low Smoke Halogen), orange
- Euroclass: Dca-s2,d2,a1
- Extremos: Short boot for easy installation
- Identification: Includes individual identifiers for each fibre

Thanks to its out-of-date connectors and short boot, this hose allows a reduced curvature radius, making better use of the space in the connecting areas. Its construction minimizes attenuation by unwanted curvatures, ensuring low levels of signal loss and high operational reliability in point-to-point networks where the traffic window is shared.

The installation is simple thanks to the short boot that allows sliding through narrow channels. It is easily fixed on wall sockets without the need for additional accessories, reducing the angle of demanding curvature and avoiding attenuation increases. Its individual packaging protects the cable during transport and storage, ready for immediate deployment in critical infrastructure.

Specifications

EAN	8499215400835
Length	5 metros
