Large Wing Washer against Ring Lamp Holder White Ref 6829

Brand: SOLERA

Reference: SOLERA 831

Anti-ring washer with large wing for lamp holders, compatible with references 6829 CR and 6829 CT. Made of white thermoplastic material, it offers mechanical stability and heat resistance in standard electrical applications.

Description

The large wing counter-ring washer is an essential component for the secure fixation of lamp holders, designed specifically to ensure electrical and mechanical stability in various lighting environments. Made with high strength thermoplastic technology, this accessory supports demanding conditions of use, offering durability and reliability in residential, commercial or industrial installations where circuit safety is a priority. Its robust structure allows a firm connection between the support and the light element, minimizing risks of vibration or displacement during continuous operation.

Technical characteristics

- Material: White thermoplastic
- Compatible references: 6829 CR and 6829 CT
- Type of accessory: Anti-ring washer with large wing
- Colour: White
- Implementation: Fixing lamp holders

This component stands out for its ability to ensure a tight and resistant connection in the installation of lamps, avoiding current leaks or accidental contacts. The large wing provides a wide support that distributes the pressure on the mounting surface, which is essential to maintain the integrity of the electrical system against thermal or mechanical fluctuations. Its optimized design facilitates fast assembly without compromising the operational safety of the equipment.

The installation requires fixing the washer directly on the basis of the lamp holders, ensuring that the screws go through the support area correctly to achieve a solid hold. It is important to verify that the thermoplastic material is clean and waste-free before proceeding with the final connection. Maintenance is simple, just periodically checking the condition of the part to detect possible signs of wear or deterioration due to prolonged environmental exposure.

Specifications

Colour	White
EAN	8423220038318
Material	Plástico
