Product sheet

Distribution box 28 elements + linkable recessed ICT

Brand: SOLERA

Reference: SOLERA 5250ICT

Distribution box with embedded ICT, frame and white door and ICT with grids for thermal dissipation. Fitting dimensions: 320x420x75 mm for distribution and 688x526x86 mm for ICT. Horizontal and vertical connection using tubes of Ø 50 mm, internal separators and bondability for modular systems.

Description

The 28-element ICT embedded distribution box is an essential component for the efficient organization and management of electrical and telecommunications systems in industrial and commercial environments. This equipment integrates a main distribution unit together with a telecommunications module, both designed to ensure optimal and safe operation. Its robust construction allows its installation in fitted wardrobes, facilitating the maintenance and future expansion of existing infrastructures.

Technical characteristics

- Capacity: 28 electrical elements + integrated ICT
- Dimensions distribution: 320 x 420 x 75 mm
- ICT dimensions: 688 x 526 x 86 mm
- Material: White frame and door with durable finish
- Heat dissipation: Special grids on ICT module doors
- Interbox connections: Passage tubes Ø 50 mm for horizontal and vertical link
- Internal organisation: Includes internal separators to sort components
- Compatibility: Linkable system to scale capacity according to needs

Thanks to its modular design and the inclusion of 50 mm connecting tubes, this system allows a smooth integration between multiple units, creating extensive and orderly electrical and telecommunications networks. The dissipation grids in the ICT module ensure that electronic equipment operates within safe

temperatures, prolonging its service life and reducing overheating failures. The presence of internal separators facilitates the rapid identification of each circuit or line, optimizing technical intervention times.

The installation is done by means of standard recessing in distribution cabinets, taking advantage of the precise measures for a perfect fit without the need for complex adaptations.

Specifications

High	32
Width	42
EAN	8423220240940
Measures	32 x 42 x 7.5
# Elements	8 elementos
Depth	7.5
