

Product sheet

Steel joint for flooring level difference light oak 8-14 mm

Brand: EDM

Reference: EDM 85547

This floating steel joint solves uneven levels between 8 and 14 millimeters by means of an adhesive system. Made of metal material with a clear beech finish, it has dimensions of 83 by 3.6 centimeters to ensure a precise and functional transition between surfaces in technical paving applications.

Description

The Flooring steel gasket is a technical accessory designed to connect elements with a controlled height difference on floor surfaces.

Technical characteristics

- Material: Steel
- Type of assembly: Level change
- Level range: 8-14 mm
- Colour: Clear (11)
- Dimensions: 83 x 3.6 cm
- Fixing system: Adhesive band

This component allows to manage precise transitions between different levels of pavement, ensuring an aesthetic and functional continuity in the final installation.
