Description

The folding Japanese traction saw is a versatile tool designed to make precise and transversal cuts, offering a folding mechanism with gears that ensures its optimal functioning.

Technical characteristics

- Type: Japanese traction saw
- Status: Foldable
- Blocking: Yes
- Sheet: Double Edge
- Tooth: 7-10 tpi for precise and parallel cuts; 17 tpi for cross-section
- Mechanism: Pivotage with gear
- Substructure: Steel for durability and rigidity

Thanks to its variable double-edged blade, this tool allows you to run thick, thin and smooth cuts with great flexibility.
