Product sheet

Long straight sheet metal shears with spring

Brand: TOUGHBUILT

Reference: EDM 79248

The straight-cut scissor is designed to make precise cuts on sheet, cutting stainless steel up to 0.76 mm and cold-rolled steel up to 1.21 mm. It has two adjustment positions: back for greater strength and forward for better control.

Description

The Long Straight Cutting Shaft Scissor is designed to execute precise and continuous cuts on metal sheets, ensuring clean results in industrial applications.

Technical characteristics

- Type: Long straight cut scissors
- Maximum cut: Stainless steel up to 0,76 mm
- Maximum cut: Cold rolled steel up to 1.21 mm
- Implementation: Chapa
- Characteristics: With spring mechanism
- Induction-hardened blade forged
- Two configurable cutting positions
- Includes cord hole

The design allows two cutting positions: backward for greater force and forward for greater control. The induction-hardened edge multiplies the life of the equipment, allowing 10 times more cuts to be made than standard models.
